**Australian Skills Quality Authority (ASQA)**

IBI is nationally registered training organisation with Australian Skills Quality Authority (ASQA) ([www.asqa.gov.au](http://www.asqa.gov.au)).

Australian Skills Quality Authority (ASQA) is the national regulator for Australia's vocational education and training sector. ASQA regulates courses and training providers to ensure nationally approved quality standards are met.

The key features of ASQA are:

- independence in our regulatory role and in providing advice
- transparency in our regulatory decisions and activities
- collaboration with industry bodies, employers, governments and RTO.

Standards for NVR Registered Training Organisations 2011 - Essential Standards for continuing registration (SNR).

Investment Banking Institute abides by the Australian Quality Training Framework and Australian Skills Quality Authority (ASQA) Standards for National VET Regulator (NVR). The Standards for NVR Registered Training Organisations 2011 are now the standards guiding nationally consistent, high-quality training and assessment services in the vocational education and training system.

NVR SNRs replace the former AQTF standards for RTOs (formerly IBI was subject to the (AQTF) 2010 Standards when registration was held with the VRQA).

IBI’s Quality Assurance and Continuous Improvement Policy ensure our courses are of the highest quality in terms of theory, industry practice and skills requirements.

2. Courses Available

IBI in 2018 currently has the following qualifications available for eligible students via face to face classroom delivery only: FNS40215 Certificate IV in Bookkeeping.

**IBI Difference**

IBI qualifications have a practical and transactional focus rather than a theoretical academic orientation. These skills are underpinned with the foundation stones to allow students to practice in the industry.

Realistic case studies and carefully selected reading materials have direct practical application to the real world requirements. The course text remains succinct so as to highlight the core foundations of the course and retain clarity of thought.

IBI also integrates course and assessment materials into other advisory areas such as corporate finance and investment banking to enhance the vocational opportunities in the respective sectors.

3. Government Funding

Since November 2014, IBI has not applied for, has or offers any form of government funding.
4. Training Packages

What is a Training Package?

It is an integrated set of nationally endorsed Competency Standards, Assessment Guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise. Training Packages endorsed by the National Quality Council (NQC). The nationally endorsed components include the

1. Competency Standards,
2. Assessment Guidelines and
3. Australian Qualifications Framework (AQF)

National competency standards describe the skills needed by people working in all sectors of the industry. The national qualifications show the required packaging of competencies to achieve qualifications in particular areas and at different levels. To achieve a qualification, a person must achieve the full set of units of competence as specified in the Training Package.

The AQF includes Guidelines on Cross-Sector Qualification Linkages that enable students to move from one qualification to another in more efficient and effective learning pathways. Units of Competency describe the skills and knowledge required for effective performance in a particular function or role and combined lead to a formal qualification. Each unit of competency is grouped into elements, a series of work activities or steps directed toward the achievement of the overall outcome of the unit. For each element, there are a number of performance criteria that specify the required level of performance in the workplace. The critical aspects of evidence usually reflect the performance criteria but may contain important, additional information required for demonstration of competence.

The relationship of the elements, performance criteria and critical aspects of evidence to the unit of competency is shown below.

A Unit of Competency is composed of the following

1.1 Element 1
   1.1.1 Performance Criteria 1
   1.1.2 Performance Criteria 2
   1.1.3 Performance Criteria 3

A person is considered to be competent when they demonstrate they have the requisite skills and knowledge, and are able to apply them to the level required in the relevant competency standard. A person is considered not yet competent if these elements cannot be demonstrated. You are participating in a course of competency-based training. Qualifications are made up of Units of Competency and these skills and knowledge are divided into related categories that form national competency standards for the financial services industry.

4. Course Delivery & Student Resources

Course Delivery

All of IBI courses are delivered to students via face to face classroom delivery only (unless otherwise agreed). BK course will be offered through a platform called "Google Classroom"

Subject to student demand, students may attend optional face-to-face classroom workshops which IBI conducts on a periodic basis. IBI Classroom Workshops are designed to provide conceptual clarity of key topics and issues contained in the course content. Workshops are conducted in an environment that promotes discussion and sharing of ideas leading to genuine learning outcomes. It is expected that participants study and work through their Learning Manuals before attending the workshops, bringing with them the main issues that they would like to discuss. Students may select from a range of classroom workshops that are scheduled and published on the IBI website. There will be no limit to the number of times a student can attend the same workshop.

Distance Learning [available only if agreed]

Self-paced learning is ideal if you are remotely located, returning to the industry or just can’t take the time off work. If you choose to study purely by Distance Learning you will be assigned an experienced professional Facilitator, who will be available by telephone and email to provide support.

Classroom Workshops

Students can decide to undertake our Classroom Workshops on a face-to-face basis (subject to student demand). Our Classroom Workshop option is a value-added learning tool and is a skill-based program moderated by Facilitators responsible for delivering and assessing knowledge and skills as well as a method to assist in the completion of the Assessment Booklet in a group setting. Students have the option of supplementing their Distance Learning studies by attending a group setting to assist them in the completion of the Assessment Booklet for the purposes of Assessment.

Our interactive classroom based Classroom Workshop Courses are the fastest way to help achieve and complete the Assessment Booklet in a tutorial environment. Training is delivered to small groups of Students in most capital cities every month and are ideal if you are new to the industry, want support and like to network. Our Facilitators are skilled at making the classroom experience interactive, providing real life examples to stimulate interest. (Please note our policy is that to be eligible to attend a Classroom Workshop, You must have received the course material at least 3 weeks prior to the commencement date. Unless you make special pick-up arrangements, this will require enrolling three weeks prior to the commencement date.)
